

# HATCHERY PRODUCTION

NOVEMBER 1968

Release:  
December 17, 1968  
3:00 P.M. (E.S.T.)

## Chick Production

Hatcheries produced 258 million chicks during November, 8 percent above a year earlier, according to the Crop Reporting Board. The November broiler-type chick hatch of 223 million was up 5 percent from a year earlier while the January through November hatch of 2,579 million, was 1 percent above the same period in 1967. Broiler-type eggs in incubators on December 1 were 5 percent above December 1, 1967.

Egg-type chicks hatched during November at 35 million, were up 27 percent from a year earlier. All regions showed increases as follows: North Atlantic, 21 percent; North Central, 46; South Atlantic, 61; South Central, 23; and West, 6 percent. Egg-type hatch for January through November totaled 472 million, 7 percent below the same months of 1967. Egg-type eggs in incubators on December 1 were up 27 percent from December 1, 1967.

DEC 30 1968

## Poult Production

I.F.A.S. - Univ. of Florida

Poult production of all breeds during November totaled 2,312,000, down 16 percent from November 1967. The heavy breed hatch was 1,454,000, down 22 percent and light breed hatch at 858,000 was down 3 percent. Turkey poult hatch January through November totaled 111,607,000, down 17 percent from the same period a year earlier. Turkey eggs in incubators on December 1 were down 21 percent from a year earlier.

"Effective January 1, 1969, the Statistical Reporting Service plans to discontinue calculation and publication of 5-year averages that appear in this report. The report will contain data for the current and the two preceding years. It is believed that changes in agriculture have decreased the value of the five-year averages for making comparisons."
